Independent Auditor's Report

To the Board of Trustees
Town of Luther, Oklahoma

Report on the Financial Statements

We have audited the accompanying modified cash-basis financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Town of Luther, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash-basis of accounting described in Note 1. This includes determining that the modified cash-basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective modified cash-basis financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Town of Luther, as of June 30, 2020, and the respective changes in modified cash-basis financial position, and, where applicable, cash flows thereof for the year then ended in conformity with the basis of accounting described in Note 1.

Other Matters

Required Supplementary Information

Management has omitted the management's discussion and analysis and budgetary comparison information that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated November 6, 2020, on our consideration of the Town of Luther's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Town of Luther's internal control over financial reporting and compliance.

Basis of Accounting

We draw attention to Note 1 of the financial statements that describes the basis of accounting. The financial statements are prepared on the modified cash-basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinions are not modified with the respect to this matter.

Russell + Williams CPA's, P.C.

**TOWN OF LUTHER, OKLAHOMA
NOTES TO FINANCIAL STATEMENTS
June 30, 2020**

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

As discussed further in Note 1.C, these financial statements are presented on a modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America (GAAP) established by the Governmental Accounting Standards Board (GASB). These modified cash-basis financial statements generally meet the presentation and disclosure requirements applicable to GAAP, in substance, but are limited to the elements presented in the financial statements and the constraints of the measurement and recognition criteria of the modified cash basis of accounting.

1.A. FINANCIAL REPORTING ENTITY

The Town of Luther, Oklahoma is a statutory Town Government under Oklahoma Statutes. The Town provides the following services: public safety, streets and highways, sanitation, public improvements, utilities and general administrative services.

The criteria used to determine which accounting entities, agencies, commissions, boards and authorities are part of the Town's operations include how the budget is adopted, whether debt is secured by general obligation of the Town, the Town's duty to cover any deficits that may occur, and supervision over the accounting functions. Any separate accounting entities would be considered component units. There are no agencies, organizations or activities meeting any of the above criteria that are excluded from the Town's reporting entity. As of June 30, 2020, the Town had one component units, the Luther Public Works Authority.

1.B. BASIS OF PRESENTATION

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The Statement of Net Position and Statement of Activities display information about the reporting government as a whole within the limitations of the modified cash basis of accounting. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities.

Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues. Business-type activities are financed, in whole or part, by fees charged to external parties for goods or services.

FUND FINANCIAL STATEMENTS

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitutes its assets, deferred outflows, liabilities, deferred inflows, net position or fund balance, revenues, and expenditures or expenses. The Town's funds are organized into two major categories: governmental and proprietary. The Town presently has no fiduciary funds. An emphasis is placed on major funds

within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the Town or meets the following criteria:

Total assets, deferred outflows, liabilities, deferred inflows, revenues, or expenditures or expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type.

Total assets, deferred outflows, liabilities, deferred inflows, revenues, or expenditures or expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

The funds of the financial reporting entity are described subsequently:

Governmental Funds

General Fund

The General Fund is the primary operating fund of the Town and always classified as a major fund. It is used to account for all financial resources not accounted for and reported in another fund.

Special Revenue Funds

Special Revenue Funds are used to account for and report the proceeds of the specific revenue sources that are either restricted or committed to expenditures for specified purposes other than debt service or capital projects. The reporting entity includes the following special revenue funds, all of which are reported as nonmajor funds: Cemetery Care.

Proprietary Funds

Enterprise Fund

Enterprise funds are used to account for business-like activities provided to the general public. These activities are financed primarily by user charges, and the measurement of financial activity focuses on net income measurement similar to the private sector. The reporting entity includes the following enterprise fund that is reported as a major fund: Luther PWA.

1.C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Measurement focus is a term used to describe what transactions or events are recorded within the various financial statements. Basis of accounting refers to when and how transactions or events are recorded, regardless of the measurement focus applied.

MEASUREMENT FOCUS

In the government-wide Statement of Net Position and Statement of Activities, both governmental and business-like activities are presented using the economic resources measurement focus, within the limitations of the modified cash basis of accounting, as subsequently defined in item (b).

In the fund financial statements, the current financial resources measurement focus or the economic resources measurement focus, as applied to the modified cash basis of accounting, is used as appropriate:

All governmental funds utilize a current financial resources measurement focus within the limitations of the modified cash basis of accounting. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

The proprietary fund utilizes an economic resources measurement focus within the limitations of the modified cash basis of accounting. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), net financial position, and cash flows. All assets, deferred outflows, liabilities, and deferred inflows (whether current or noncurrent or financial or nonfinancial) associated with their activities are generally reported within the limitations of the modified cash basis of accounting.

BASIS OF ACCOUNTING

The financial statements are presented on a modified cash basis of accounting, which is a basis of accounting other than GAAP as established by GASB. This basis of accounting involves modifications to the cash basis of accounting to report in the statements of net position or balance sheets cash transactions or events that provide a benefit or result in an obligation that covers a period greater than the period in which the cash transaction or event occurred. Such reported balances include investments, interfund receivables and payables, capital assets and related depreciation, and short-term and long-term liabilities arising from cash transactions or events.

This modified cash basis of accounting differs from GAAP primarily because certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected and other accrued revenue and receivables) and certain liabilities and their related expenses or expenditures (such as accounts payable and expenses for goods or services received but not yet paid and other accrued expenses and liabilities) are not recorded in these financial statements. In addition, other economic assets, deferred outflows, liabilities, and deferred inflows that do not arise from a cash transaction or event are not reported, and the measurement of reported assets and liabilities does not involve adjustment to fair value.

If the Town utilized the basis of accounting recognized as generally accepted in the United States, the fund financial statements for governmental funds would use the modified accrual basis of accounting, and the fund financial statements for proprietary fund types would use the accrual basis of accounting. All government-wide financial statements would be presented on the accrual basis of accounting.

1.D. FINANCIAL POSITION

CASH AND CASH EQUIVALENTS

For the purpose of financial reporting, cash and cash equivalents includes all demand and savings accounts and certificates of deposit or short-term investments with an original maturity of three months or less. Trust account investments in open-ended mutual fund shares are also considered cash equivalents.

INVESTMENTS

Investments classified in the financial statements consist entirely of certificates of deposit acquired with cash whose original maturity term exceeds three months. Investments are carried at cost, which approximates fair value.

CAPITAL ASSETS

The Town's modified cash basis of accounting reports capital assets resulting from cash transactions or events and reports depreciation, when appropriate. The accounting treatment over property, plant, and equipment (capital assets) depends on whether the assets are used in governmental fund operations or proprietary fund and similar discretely presented component unit operations and whether they are reported in the government-wide or fund financial statements.

Government-Wide Statements

In the government-wide financial statements, capital assets arising from cash transactions or events are accounted for as assets in the Statement of Net Position. All capital assets are valued at historical cost or estimated historical cost if actual is unavailable.

Depreciation of all exhaustible capital assets arising from cash transactions or events is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. A capitalization threshold of \$500 is used to report capital assets. The range of estimated useful lives by type of asset is as follows:

Buildings	40-50 years
Improvements other than buildings	10-25 years
Machinery, furniture, and equipment	3-20 years
Utility property and improvements	10-50 years
Infrastructure	25-50 years

Fund Financial Statements

In the fund financial statements, capital assets arising from cash transactions or events acquired for use in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets acquired for use in proprietary fund operations are accounted for the same as in the government-wide statements.

LONG-TERM DEBT

All long-term bonds, notes, and other debt arising from cash transactions or events to be repaid from governmental and business-type resources are reported as liabilities in the government-wide statements.

Long-term debt arising from cash transactions or events of governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources, and payment of principal and interest is reported as expenditures. The accounting for proprietary funds is the same in the fund financial statements as the treatment in the government-wide statements.

NET POSITION/FUND BALANCE CLASSIFICATIONS

Government-Wide Statements

Net Position is classified and displayed in three components:

Net investment in capital assets. Consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets and adjusted for any deferred inflows and outflows of resources attributable to capital assets and related debt.

Restricted. Consists of restricted assets reduced by liabilities and deferred inflows or resources related to those assets, with restriction constraints placed on the use either by external groups, such as creditors, grantors, contributors, or laws and regulations of other governments, or law through constitutional provisions or enabling legislation.

Unrestricted. Net amount of assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

It is the Town's policy to first use restricted net resources prior to the use of unrestricted net resources when an expense is incurred for purposes for which both restricted and unrestricted net resources are available.

Fund Financial Statements

Governmental Funds

The difference among assets, deferred outflows, liabilities, and deferred inflows of governmental funds is reported as fund balance and classified as nonspendable, restricted, committed, assigned, and unassigned based on the respective level of constraint. These constraints are defined as follows:

Nonspendable. Amounts that cannot be spent because they either are not in spendable form or are legally or contractually required to be maintained intact.

Restricted. Amounts constrained regarding use from restrictions externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or by restrictions imposed by law through constitutional provisions or enabling legislation.

Committed. Amounts constrained regarding use for specific purposes pursuant to requirements imposed by formal action of the Town's highest level of decision-making authority. (In the case of the Town of Example, commitments are evidenced by adoption of an ordinance by the Town Council.)

Assigned. Amounts constrained by the Town's intent to be used for specific purposes but that are neither restricted nor committed. (In the case of the Town of Example, assignments are evidenced either by resolution of the Town Council or by the Town Manager in written form as approved by vote of the Town Council pursuant to Town policy.)

Unassigned. The residual classification of the General Fund for spendable amounts that have not been restricted, committed, or assigned to specific purposes.

It is the Town's policy to first use restricted fund balances prior to the use of unrestricted fund balances when an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available. It is also Town policy to use committed fund balances before assigned fund balances and assigned fund balances before unassigned amounts when an expenditure is incurred for purposes for which amounts in those classifications are available to be used.

The Town has no formal minimum fund balance policies or any formal stabilization arrangements in place.

Proprietary Funds

The difference among assets, deferred outflows, liabilities, and deferred inflows of proprietary funds is reported as net position and classified in the same manner as the government-wide financial statements, as previously described.

1.E. REVENUES, EXPENDITURES, AND EXPENSES

PROGRAM REVENUES

In the Statement of Activities, modified cash-basis revenues that are derived directly from each activity or from parties outside the Town's taxpayers are reported as program revenues. The Town has the following program revenues in each activity: General Government, Streets, and Public Works.

All other governmental revenues are reported as general revenues. All taxes are classified as general revenue even if restricted for a specific purpose.

OPERATING REVENUE AND EXPENSES

Operating revenues and expenses for proprietary funds and the similar discretely presented component unit result from providing services and producing and delivering goods or services.

They also include all revenues and expenses not related to capital and related financing, noncapital financing, or investing activities.

GASB 34 IMPLEMENTATION

The Town has implemented the new financial reporting model, as required by the provisions of GASB Statement No. 34, Basic Financial Statements—and Management’s Discussion and Analysis—for State and Local Governments, as of June 30, 2004.

1.G. USE OF ESTIMATES

The preparation of financial statements in conformity with the modified cash basis of accounting used by the Town requires management to make estimates and assumptions that affect certain reported amounts and disclosures (such as estimated useful lives in determining depreciation expense); accordingly, actual results could differ from those estimates.

NOTE 2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

By its nature as a local government unit, the Town and its component units are subject to various federal, state, and local laws and contractual regulations. The following instances of noncompliance are considered material to the financial statements.

NOTE 3. DEPOSITS WITH FINANCIAL INSTITUTIONS

Deposits and investments made by the Town are summarized below. The deposits are classified as to credit risk within the following three categories:

- Category 1 Insured or collateralized, with securities held by the Town or its agent in the Town's name.
- Category 2 Collateralized with securities held by the pledging financial institution’s trust department or agent in the Town's name.
- Category 3 Uncollateralized (This includes any bank balance that is collateralized with securities held by the pledging financial institution or by its trust department or agent, but not in the Town's name.)

For the year ending June 30, 2020, the Town and its component units had category one deposits up to the FDIC insurance limits. The remaining account balances for the Town and its component units were category three.

A. Restricted Assets

The Luther Public Works Authority note payable to Rural Development includes restricted cash and investments for a debt service reserve to be used for payment of principal and interest provided sufficient funds are not available to make debt service payments in a timely manner. Additionally, cash and investments held for refund to customers for water deposits are included as restricted assets. As of June 30, 2020 cash restricted for debt service was \$-0- and cash restricted for customer deposits was \$29,328.

B. Deposits subject to refund

Utility customers are required to make a meter deposit, which is refunded upon the customer's termination of services, provided there are no outstanding bills. Monies are deposited in separate accounts, and a liability has been recorded to represent the amount of deposits due to customers. As of June 30, 2020, cash and investments included \$29,328 available for refund of customer deposits, while the liability to customers was \$29,328.

Appearance bonds and other payments made to the municipal court funds are held until final disposition by the court at which time they are refunded to the bondholder or paid over to the Town general fund as fines. As of June 30, 2020, \$-0- was being held that was subject to refund.

NOTE 4. CAPITAL ASSETS AND DEPRECIATION

Capital asset balances and activities for the year ended June 30, 2020 were as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
Governmental Funds				
Land	70,235	-	-	70,235
Buildings	998,279	54,700	-	1,052,979
Equipment	726,035	-	-	726,035
Improvements	464,686	-	-	464,686
Total capital assets	2,259,235	54,700	-	2,313,935
Accumulated Depreciation	(1,068,019)	(91,395)	-	(1,159,414)
Net Assets	<u>\$ 1,191,216</u>			<u>\$ 1,154,521</u>
Business-type activities				
Land	82,000	-	-	82,000
Water system	847,111	155,535	-	1,002,646
Water equipment	63,153	36,733	-	99,886
Sewer system	647,770	-	-	647,770
Sewer equipment	33,750	-	-	33,750
Total capital assets	1,673,784	192,267	-	1,866,051
Accumulated Depreciation	(1,141,099)	(62,075)	-	(1,203,174)
Net Assets	<u>\$ 532,685</u>			<u>\$ 662,877</u>

NOTE 5. NOTES PAYABLE

Long-term liabilities of the Town of Luther as of June 30, 2020, are summarized as follows:

Business-type activities

The first note payable is to BancFirst and carries an interest rate of 3.25%. These monies were used to purchase new meters. The balance of this note as of June 30, 2020 was \$32,058 and matures in March 2023. The PWA paid \$10,953 in principal and \$1,256 in interest on this obligation for the year ending June 30, 2020. Payments on this note are \$1,017 per month.

	Principal	Interest		
2020/2021	11,337	872	Balance, Beginning of Year	\$ 43,011
2021/2022	11,711	498	Principal Paid During Year	<u>(10,953)</u>
2022/2023	9,010	121	Balance, End of Year	<u>\$ 32,058</u>
Total	<u>\$ 32,058</u>	<u>\$ 1,492</u>		

The first note payable is to BancFirst and carries an interest rate of 3.45%. These monies were used to a new truck. The balance of this note as of June 30, 2020 was \$33,163 and matures in May 2025. The PWA paid \$3,570 in principal and \$721 in interest on this obligation for the year ending June 30, 2020. Payments on this note are \$613 per month.

	Principal	Interest		
2020/2021	6,307	1,045	Balance, Beginning of Year	\$ -
2021/2022	6,528	824	Loan Proceeds	36,733
2022/2023	6,757	595	Principal Paid During Year	<u>(3,570)</u>
2023/2024	6,994	358	Balance, End of Year	<u>\$ 33,163</u>
2024/2025	6,577	113		
Total	<u>\$ 33,163</u>	<u>\$ 2,934</u>		

Governmental-type activities

The first note payable to the First Bank & Trust carries an interest rate of 4.5%. These monies were used to purchase two police cars and one fire vehicle. The balance of this note as of June 30, 2020 was \$25,905 and matures in May 2022. The Town of Luther paid \$12,090 in principal and \$1,487 in interest on this obligation for the year ending June 30, 2020. Payments on this note are \$1,131 per month.

	Principal	Interest		
2020/2021	12,681	896	Balance, Beginning of Year	\$ 37,995
2021/2022	13,224	310	Principal Paid During Year	<u>(12,090)</u>
Total	<u>\$ 25,905</u>	<u>\$ 1,206</u>	Balance, End of Year	<u>\$ 25,905</u>

NOTE 6. RISK MANAGEMENT

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The Town has insurance for the major risks such as property and general liability, workers' compensation, and unemployment. Commercial insurance is used to cover general liability claims and the risk of loss to Town buildings and mobile equipment. Judgments against the Town may be paid by a property tax assessment over a three-year period.

NOTE 7. EMPLOYEE NOTES RECEIVABLES

On September 21, 2015, the Town was given notice from the State of Oklahoma Firefighters Pension and Retirement System (OFPRS) that no paid contribution had been withheld or paid to the System and that the employer contribution had also not been paid to the System. OFPRS

required that the full balance owed by the Town and the employee be paid immediately. On October 8, 2015, the Town paid the full balance of \$32,757.88 owed to OFPRS. The employees portion was \$12,623.04. The employee entered into a promissory agreement with the LPWA to repay the \$12,623.04. The employee has agreed to repay a portion of this note back to the LPWA each pay period. The balance on this note as of 6/30/2020 was \$3,924.91.

As of July 2017, this employee was no longer employed by the Town of Luther. However, payments are still being made and they will continue to be liable for such amounts until the amount is paid in full.

NOTE 8. SUBSEQUENT EVENTS

Subsequent events have been evaluated through November 6, 2020, which is the date the financial statements were issued.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Trustees
Town of Luther

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the accompanying modified cash basis financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Town of Luther, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise Town of Luther's basic financial statements, and have issued our report thereon dated November 6, 2020.

The report was a special report on the Town's use of a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Luther's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Luther's internal control. Accordingly, we do not express an opinion on the effectiveness of Luther's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any

deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies. 2020-1.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Town of Luther's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Town of Luther's Response to Findings

Town of Luther's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. Town of Luther's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Schedule of Current Findings and Responses

2020-1 Lack of Segregation of Duties (Repeat Finding)

CONDITION: During our review of the internal control structure, we noted that several procedures lack the control of having duties segregated. We understand that due to the size of the town and number of personnel, many aspects related to segregation of duties cannot be implemented.

CRITERIA: Proper internal control requires a separation of record keeping from the associated assets or a system of management oversight to compensate for the lack of separation.

CAUSE OF CONDITION: Limited personnel and the ability of one person to have absolute access.

EFFECT OF CONDITION: The Town is subject to embezzlement without proper controls.

RECOMMENDATION: A third party or individual should be added to the day-to-day activities to help strengthen the internal controls. This could be done by the Treasurer or a board member reviewing the accounts on a weekly basis (at a minimum) and also reconciling the deposits to the cash register system. Furthermore, it is recommended that a review be done each month to insure that the bills approved for in the previous month were the only checks that were paid.

MANAGEMENT RESPONSE: All checks now require two for all checks under \$2,500 and three signatures for all checks over \$2,500. Furthermore, all transfers within accounts must have three signatures. All debit card and/or credit card will require board approval. An outside CPA has been hired to help reconcile matters on a monthly basis so that internal controls can be stronger. All credit for Utility Billings and Tickets must be signed off by at least two people.
